SUMMARY

Computer Science student with a strong interest in full-stack web development. Experienced in building dynamic and responsive web applications using React for the frontend and Node.js with Express for the backend. Proficient in HTML, CSS, Bootstrap, JavaScript, and MySQL, with hands-on experience in designing databases and working with relational data. Completed multiple academic and personal projects involving full-stack development, RESTful APIs, and database integration. Strong problem-solving skills and highly motivated to continuously learn new technologies and apply them in real-world projects. Currently seeking a full-stack or frontend internship to gain professional experience and contribute effectively to a development team.

PROFESSIONAL SKILLS

- Teamwork
- Self-learning
- Problem Solving
- Time Management

TECHNICAL SKILLS

- HTML / CSS/Boot-strap
- C++/Node.Js
- GitHub & Git
- JavaScript -React
- Python /Mysql/Api
- OpenGL (Basics)

CERTIFICATES

- HTML & CSS Fundamentals – **MaharaTech** (2024)
- React(js) Fundamentals – MaharaTech
- Problem with C++ – Instant (2024)
- Artificial Intelligence (AI) – **NTI** (2025)
- Introduction to Deep Learning – **NVIDIA** (2025)
- Organizer – **Code Challenge Competition** (2024)
- Introduction to UX – **Mahara-Tech** (2024)
- AI & Technology Sessions – **Attendee** (Various)
- Python(AI)-Sprints (2025)
- Internship Front-End – Apexcify(2025)
- Traning Bank CIB / BANK Masr(2025)

EDUCATION

Bachelor of Computer Science

Egyptian Chinese University

Expected Graduation: 2027

- Studied C++, Object-Oriented Programming, Computer Graphics, and Web Technologies.
- Achieved excellent academic performance (Grade: Distinction).

COURSES

• HTML ,CSS, Tailwind,Bootstrap & REACT(JS)

- 1.Mahara-Tech Platform – Completed with certification.
- 2.Elzero Web School (YouTube) – Self-paced structured learning with projects.

• Problem Solving – Level 2

Coach Academy – Covered logical thinking and algorithmic problem-solving using C++.

• Artificial Intelligence (AI) – NTI

Covered Machine Learning fundamentals and introduction to Deep Learning.

• Introduction to Deep Learning – NVIDIA

Covered fundamental concepts of Deep Learning and neural networks.

PROFESSIONAL EXPERIENCE

- Seeking an internship in **Full-stack Development** to apply my skills in Web Development and Computer Graphics, while gaining hands-on experience in real-world projects. I am also passionate about **AI and Machine Learning**, having completed related courses, and eager to further develop my knowledge in this field.

PROJECTS

- **Web Development Projects**

- 1-Medi-tarck (pharmacy)**

- This is a pharmacy website using HTML, CSS, and JavaScript.

- 2-Simple Calculator**

- Simple Calculator— Built during internship at Apexify Technologies.

- Supports mouse/keyboard input, multiple themes, responsive design, and clean UI.

- 3-algorithms: Linear Search and Binary Search**

- Demonstrated Brute Force & Binary Search in multiple formats:

- C++ CLI, Python GUI, Space-themed GUI, and Web (HTML/CSS/JS).

- 4-Operating Systems course at college!**

- Implements four distinct algorithms—FCFS, SRTF, Priority, and Round Robin—with in-depth computations for turnaround, waiting, and response times.

- 5--My profile site**

- I've been working on using HTML & CSS. Stay tuned for upcoming projects.

- **Deep Learning & Machine Learning Projects**

- 1-Face-Mask-Detection**

- Deep Learning project using TensorFlow & Keras (MobileNetV2, data augmentation, fine-tuning).

- Deployed with Streamlit for real-time detection.

- 2-Telco Customer Churn Prediction**

- ML project for churn prediction with preprocessing, feature engineering, and model evaluation across classifiers.

- 3-Breast-Cancer-Classification-Project**

- Predictive analytics project using classification models for early detection of breast cancer (accuracy, precision, recall, F1-score).

- **Data Analysis & Visualization Projects**

- 1-E-Commerce-Data-Exploration**

- Exploratory Data Analysis on e-commerce datasets with data cleaning, visualization, customer segmentation, and interactive Streamlit dashboard.

ADDITIONAL INFORMATION

- Participated in the ECPC pre-qualification stage.
- Familiar with Git & GitHub.
- Good communication and teamwork skills.
- Fast learner, passionate about self-development.
- Currently learning JavaScript and exploring frontend frameworks.
- English Proficiency: Fair – currently improving.
